ГЛАЗАМИ СОПЕРНИКА

Зевок — грубая ошибка, ведущая к резкому ухудшению позиции. Во время партии мы можем зевнуть мат или фигуру, что часто приводит к непоправимым последствиям. Зевки являются неизбежными спутниками шахматистов, начиная с новичков и заканчивая чемпионами мира.

В этой книге вы найдёте отличную методику, которая позволит бороться с проблемой и заметно сократит количество ошибок в партиях. Полностью зевки не уйдут, т.к. многое зависит от уровня концентрации внимания, но их количество заметно пойдёт на убыль.

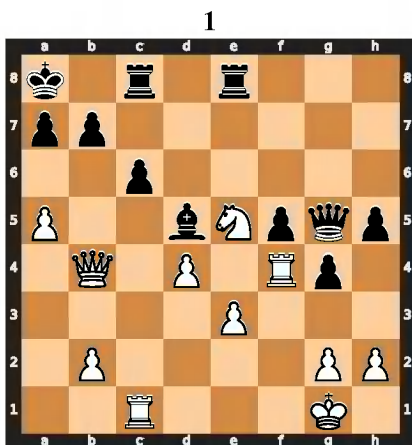

Книга адресована шахматистам второго и третьего года обучения: 3-2 разряды, Elo Fide 1300-1600.

КАК РЕШАТЬ ЗАДАЧИ:

- делаем в уме ходы, указанные под диаграммой;
- далее находим комбинацию-жертву, которая ведёт к выигрышу материала или мату;
- во всех примерах комбинация за чёрных;
- на диаграмме мы видим позицию глазами белых, таким образом создаётся эффект игры за соперника;
