Призанта**

Современный
шахматный решебник

Том 1

Тактика на автомате

Добро пожаловать в волшебный мир комбинаций!

На первых этапах шахматного развития научиться находить тактические мотивы гораздо важнее, чем выучить многие теоретические варианты и овладеть премудростями миттельшпиля и эндшпиля. Вместе с тем решение комбинаций - дело увлекательное и заманчивое. В этой книге вы найдёте новый жанр задач с двумя ходами в уме. Такие упражнения позволяют быстро развить ключевые качества для шахматистов 1-2 года обучения: оперативный расчёт вариантов и комбинационное зрение.

Как решать задачи:

- под диаграммой мы видим два хода, делаем их в уме;
- далее нужно найти комбинацию - жертву, которая ведёт к выигрышу материала или мату.

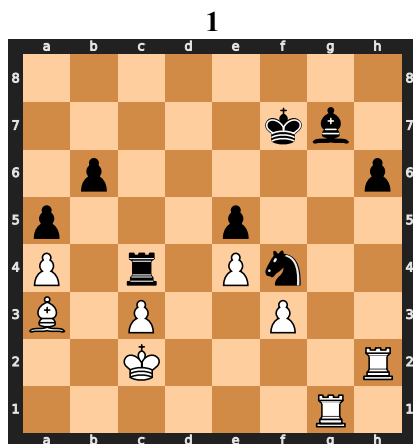

Книга адресована шахматистам первого и второго года обучения: 1-2

юношеские разряды.

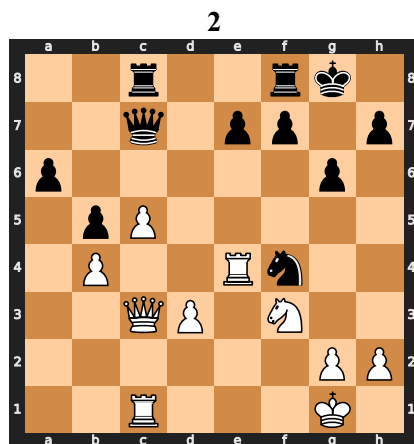

Во всех примерах ход белых.

ОБ АВТОРЕ:

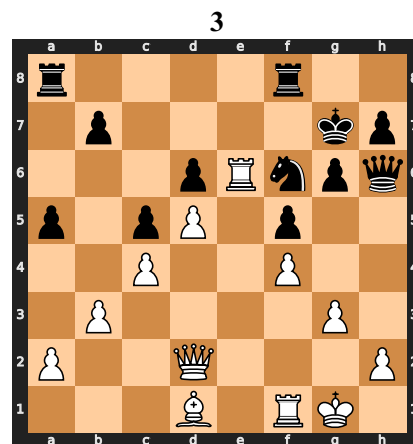

ЯРОСЛАВ ПРИЗАНТ - Международный мастер, максимальный рейтинг FIDE 2553. Лучший детский тренер России 2014 и 2015 года. Среди учеников многие мастера и гроссмейстеры, победители чемпионатов мира, Европы и национальных чемпионатов.
